In claim 26 line 4 "a first power supply contact of" - - has been added after the term "to".

In claim 26 line 5 "associated with" has been changed to - - connection of - -.

In claim 26 line 6 - - and a third contact for connecting to a second power supply contact of the power source - - has been added after the term "source;".

Allowable Subject Matter

Claims 1-12 and 26-38 are allowed. The following is an examiner's statement of reasons for allowance:

With respect to claims 1-12 Willis teaches an inrush current controller for a device, Willis does not teach the impedance control circuit includes a first timer which is triggered by the device being plugged into the source of energization and the logic output from the source enabling a limited inrush at the current input during a second time interval controlled by a second timer. At least this further limitation is not taught or rendered obvious by the prior art of record.

With respect to claim 26-32 Willis teaches a controller for a device and a controller, however does not teach impedance control circuit comprises a first timer coupled to the current input as claimed wherein the first timer is enables when a connection is made between the connector and the power source in combination with the impedance control circuit enabling a limited amount of current at the current input based on the logic output during a second time interval. At least this further limitation is not taught or rendered obvious by the prior art of record.

With respect to claim 33-38 Willis teaches a controller for a device and a controller, however does not teach impedance control circuit comprises a first timer

configured to force the impedance off during a first time interval controlled by the first timer in combination with a second timer configured to provide a current limiting output during a second timer interval. At least this further limitation is not taught or rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
